

Functional Safety Development - Tasks/ Technical Approach

Outcome of the functional safety development:		Deliverable #
1	Item definition according to ISO 26262 with respect to functional safety and HV safety	D5.1
2	Generic hazard and risk analysis (H&R) on powertrain level	D5.2
3	Powertrain system FMEA (Failure Modes and Effects Analysis)	D5.3
4	Functional safety concept (Definition of functional safety requirements and HV safety requirements)	D5.4
